## LED Prescriptive Cash Incentives

### Solid State Lighting (LEDs)

S10 and S11	Outdoor Pole/Arm-Mounted LED Streetlight or Parking Light Fixture must be DesignLights approved	\$175.00 Per Fixture
S12 and S13	Outdoor Wall-Mounted LED Area Fixture (Wallpack) must be DesignLights approved	\$100.00 Per Fixture
S14 and S15	LED Parking Garage Fixture must be DesignLights approved	\$175.00 Per Fixture
S20 and S21	Recessed, Surface and Pendant-Mounted LED Downlight must carry ENERGY STAR label	\$ 35.00 Per Fixture
S30 and S31	Refrigerated Case LED Light Fixture must be DesignLights approved	\$ 75.00 Per Door  \$100.00 Per Door with Occupancy Sensor
S40 and S41	Screw-In LED Lamps must carry ENERGY STAR label	\$ 20.00 Per Lamp

Efficiency Maine is a statewide effort to promote the more efficient use of electricity, help Maine residents and businesses reduce energy costs, and improve Maine's environment.

### Criteria

In order to be eligible for incentives through Efficiency Maine, LED products must carry the ENERGY STAR label or be approved by the DesignLights Consortium, where appropriate.

For a complete list of products that carry the ENERGY STAR label, please refer to the ENERGY STAR section of the U.S. Department of Energy website:  
[http://www.energystar.gov/index.cfm?fuseaction=ssl.display\\_products\\_com\\_html](http://www.energystar.gov/index.cfm?fuseaction=ssl.display_products_com_html)

In order to determine whether your proposed product is approved by the DesignLights Consortium, please contact your manufacturer's representative, your electrical supplier, or Efficiency Maine.

Products that do not carry the ENERGY STAR label or have not been approved by the DesignLights Consortium will be considered for an incentive ONLY IF the following information is provided for the specific fixture/lamp model proposed:

1. Independent LM-79 Test Report, which at a minimum must include photometric distribution, lumen output, input watts, CRI and CCT.

*AND either one of the following:*

2. **a)** 5-year manufacturer warranty that covers the product if light output drops below 70% of the initial output.  
*or*  
**b)** Independent LM-80 Test Report, as well as an in-situ temperature test report indicating the temperature of the hottest LED. This must be accompanied by a written explanation of how L70 Lifetime of Product is determined.

### Guidelines

- Each business is eligible for Efficiency Maine incentives up to \$300,000 per business, per calendar year.
- Measures that save electricity, but are not noted as a prescriptive incentive measure, may be eligible under our custom incentive program. Contact us for more information at 866-376-2463.
- Efficiency Maine reserves the right to monitor and/or inspect the installation and energy use of the products for which incentives are paid.
- Efficiency Maine may publicize your participation in this program, unless otherwise requested.
- This offer may be changed, revised, or discontinued at any time by Efficiency Maine.
