

# Rebate Reservation Form

## Renewable Energy Programs

Customer Name	
<b>Location where work will be performed:</b>	
Site Address	
City, State, Zip	
<b>Address for correspondence and rebate payment (if different from above):</b>	
Mailing Address	
City, State, Zip	
Phone Number	
Email Address	

**Instructions:** Complete this form and return it to Efficiency Maine to request a rebate reservation. If the reservation is approved, a written notice will be sent to the mailing address noted above. The customer will have 120 days to have the work completed, or overseen, by a Certified/Qualified Installer(s). If the work is not completed and a Rebate Claim Form is not submitted within this timeframe, the reservation will expire and customer will need to re-apply. A new reservation will be issued only if funding is available.

### STEP 1: Specify the building type

<input type="radio"/> Existing Building	<input type="radio"/> New Construction	<input type="radio"/> Residential	<input type="radio"/> Commercial
Electric Utility (building must be grid-tied to qualify for a rebate)			

### STEP 2: Calculate the amount of your rebate reservation

<b>SOLAR THERMAL PROGRAM - Check all that apply</b>			<i>Installer requirement:</i> Must be listed on Efficiency Maine website
<input type="radio"/>	<b>Basic Solar Thermal Rebate</b>	25% of Project Cost up to <b>\$1,000</b>	Residential and commercial solar air and water heating systems are eligible.
<input type="radio"/>	<b>Solar Thermal Bonus</b>	<b>\$500</b>	Bonus is available to customers who either 1) participate in Efficiency Maine's Home Energy Savings Program, or 2) build a new ENERGY STAR Home, or 3) spend \$2,000 on efficiency upgrades

<b>SOLAR ELECTRIC (PV) PROGRAM - Check if applicable</b>			<i>Installer requirement:</i> Must be North American Board of Certified Energy Practitioners (NABCEP)-certified
<input type="radio"/>	<b>Basic Photovoltaic Rebate</b>	\$2/watt up to <b>\$2,000</b>	To qualify for a rebate, an energy audit must be performed. A copy of the audit report must be submitted before the rebate can be issued (EXCEPTION: An audit is not required when system is installed on a newly built home).

<b>WIND ENERGY PROGRAM - Check if applicable</b>			<i>Installer requirement:</i> Must be a licensed, master electrician
<input type="radio"/>	<b>Residential Wind</b>	\$1/watt up to <b>\$2,000</b>	<i>For both Residential and Commercial Wind projects:</i> Minimum available wind speed: Class II (9.8 miles per hour). Minimum tower height at turbine hub: 66 ft (Class II wind); 50 ft (Class III wind). Blade tip must be 30' above any structure or tree within 250' radius of tower.
<input type="radio"/>	<b>Commercial Wind</b>	\$1/watt up to <b>\$4,000</b>	

ENTER TOTAL REBATE RESERVATION AMOUNT \$

Actual rebate amount may vary depending on project cost or the output of the renewable energy system.

### STEP 3: Customer acknowledgement and signature

I certify that all of the customer information included above is accurate and that I have reviewed and understand all sections of this Rebate Reservation Form. Furthermore, I understand that pre-approval of the requested rebates is subject to funding availability and compliance with Efficiency Maine rules. I understand that participation in Efficiency Maine's Renewable Energy Programs is voluntary and that by accepting the rebates, I grant to Efficiency Maine all of the energy benefits from this project, excluding the value of the energy cost savings, but including all rights to all associated ISO-NE Energy, Capacity and Reserve Products, as well as any carbon allowances and associated societal and environmental benefits. I agree to comply with all applicable local, state and federal historical preservation requirements. I further acknowledge that a copy of this original signed application may be used by Efficiency Maine in lieu of originals. I also agree, if selected, to allow for an inspection of the renewable energy system(s) to verify the quality of the work performed.
