

Project Completion Checklist

Leading the Way to a Brighter Future

To ensure an efficient and accurate processing of the application, please make sure you have provided the following:

1. Materials Invoice

Must include quantity, model number, and unit pricing.

2. Labor Invoice

Must include quantity of hours and labor rate.

Please make note if other work unrelated to this project was completed as part of this invoice.

For Performance Contract and Multiple Location Projects

1. Copy of signed contract
2. Electronic copy of room by room audit (lighting projects)
3. Electronic as-built documenting any changes
4. Participant sign-off of completed measures installed
5. Copy of final invoice

Missing information will impede the processing of the final incentive check. If you have any questions, please call the Efficiency Maine Call Center at 1-866-376-2463 ext. 1.

The Program

Efficiency Maine is a statewide effort to promote the more efficient use of electricity, help Maine residents and businesses reduce energy costs, and improve Maine's environment.

Efficiency Maine provides incentives to reduce the purchase price of premium, reliable, energy-efficient lighting products.

Efficiency Maine cash incentives lower your purchase costs, but the real savings come as this premium equipment reduces your energy costs in the future. When you purchase efficient lighting products, you lower your electric bill, provide quality lighting for your staff and customers, and help Maine avoid costly, new electric generation.

For information about equipment for your home, go to efficiencymaine.com and look at our residential offerings.
