

Below is the table that reports the financial details for the Maine Solar Energy Rebate Program as of April 30, 2008. The program is accepting incentive applications for solar hot water and solar hot air systems and has \$550,587 funds remaining for solar thermal systems. The solar PV incentives will reopen in the fall (October November) issuing reservations for the year(s) 2009 & 2010. New PV reservations will require a Home energy audit

Thermal\* Residential Incentive is 30% or \$2,500 whichever is less  
 Thermal\* Energy Star & Maine Home Performance is 35% or \$3,000 whichever is less  
 Thermal\* Commercial Incentive is 35% or \$10,500 whichever is less  
 PV Incentives are \$2.00/watt for first 1000 watts, capped at \$2,000

\* Thermal is Water and Hot air

### APRIL 30 2008

| <b>System Type</b>           | <b>Authorized Funding through 12/31/08</b> | <b>Reserved</b>        | <b>Paid Reservations</b> | <b>Unpaid Reservations</b> | <b>Systems Installed</b> | <b>Available Funds Remaining</b> | <b>Percent Remaining</b> |
|------------------------------|--|------------------------|--------------------------|----------------------------|--------------------------|----------------------------------|--------------------------|
