

Maine Cities & Towns

BENEFIT FROM ENERGY EFFICIENCY

Cities and towns across Maine have lowered their electricity costs by investing in energy efficient equipment. Efficiency Maine has provided these municipalities with incentive checks ranging from \$36 to \$2,000 to help them purchase this equipment. By investing in efficiency, these communities are choosing to keep dollars in their communities and are helping to reduce environmental pollution associated with electricity production.

Efficiency Maine provides technical assistance and cash incentives to make it easier for Maine's cities and towns to save electric energy. It isn't just town offices that can benefit. Your libraries, schools, garages, fire and police stations, water and wastewater plants, and any other municipal facilities are eligible for Efficiency Maine's services and resources. With energy costs rising and cash incentives available, now is the time to invest in energy efficiency.

Opportunities to save energy

Efficiency Maine offers incentives on high efficiency electrical equipment including:

- Lighting
- Ventilation
- Refrigeration
- Heating and air conditioning systems
- Motors and drives
- Compressed air systems
- Other electricity consuming equipment

Here's how we can help

Not sure where to start? You can find more information at our Web site, efficiencymaine.com/business or call us at 866-376-2463. Our staff will be glad to work with you and your suppliers to provide information and technical assistance, and to provide a list of suppliers familiar with Efficiency Maine. When you are ready to act, we will help you fill out the applications. Just let us know how we can help you achieve your electric energy efficiency goals.

Business Program

Program of the Maine Public Utilities Commission

Energy Efficient Projects at Participating Cities & Towns

This does not include the more than 70 schools across the state who have participated in the program.

Augusta – heating and air conditioning system

Boothbay Harbor – lighting and occupancy controls

Buckfield – lighting (including exit lights)

Caribou – lighting

Farmington – lighting (including exit lights)

Gardiner – lighting

Glenburn – lighting

Gouldsboro – lighting (including exit lights)

Hampden – lighting

Isle Au Haut – ceiling fan with lighting

Lincoln – lighting (including exit lights)

Mt. Vernon – lighting

Raymond – lighting

Rockport – lighting

St. Agatha – motors

Windham – lighting

Efficiency Maine is a statewide effort to promote the more efficient use of electricity, help Maine residents and businesses reduce energy costs, and improve Maine's environment. Efficiency Maine is funded by electricity consumers and administered by the Maine Public Utilities Commission.
