

Save \$300/year In Energy Costs

Efficiency Maine \$300 Mail-In Rebate

ATTACH
RECEIPT
HERE

The ENERGY STAR® certified heat pump water heater can be twice as energy-efficient as a standard electric model.

ENERGY STAR certified heat pump water heaters can save consumers \$300 per year.

Savings assumptions obtained at energystar.gov (January 2013).

Valid for purchases made January 25, 2013 - June 30, 2013, or while funds are available. All rebate requests must be postmarked no later than July 31, 2013. Limit: One heat pump water heater rebate per residence per calendar year. Rebates are subject to change without notice. Heat pump water heaters must be ENERGY STAR certified to qualify. Unit must be installed within the state of Maine. Efficiency Maine reserves the right to conduct field inspections to verify installations. Limitation of liability: Efficiency Maine does not warrant the performance of installed equipment expressly or implicitly. Allow 6 weeks for rebate processing. Incomplete information will delay or disqualify your rebate. For more information, call 1-866-376-2463.
