

Efficiency Maine Residential Rebates

Efficiency Maine offers rebates for the following energy upgrades. Low income and natural gas customers may be eligible for additional rebates. Learn about rebates and energy loans at efficiencymaine.com:

	Rebates available for all customers	Low Income Rebates	Eligible for an Energy Loan?
Air Sealing and Energy Assessment	\$400 – \$500		Y
Boilers	\$500		Y
Clothes Washers	\$50		Y
Furnaces	\$500		Y
Geothermal Systems	Up to \$3,000		Y
Heat Pump Water Heaters	\$750	\$400	Y
Heat Pumps	\$500 – \$750		Y
Insulation	Up to \$3,000*		Y
LED Bulbs	Reduced prices at retailers and distributors statewide.	Free bulbs offered by mail	Y
Pellet Boiler Systems	Up to \$3,000		Y
Room Air Purifier	\$50		Y

*Rebates of up to \$6,000 available to heating customers of Unitil, Bangor Natural Gas, or Maine Natural Gas.

Restrictions and eligibility requirements apply. Visit efficiencymaine.com for details or call **866-376-2463**.

NON-EFFICIENCY MAINE REBATES

Natural gas utilities: Natural gas customers may be eligible for additional rebates from their utility. Contact your natural gas provider for more information.

Federal Renewable Energy Tax Credits: Get up to 30% of the cost of eligible solar and geothermal technologies (expires 12/31/2021). For more information, visit www.dsireusa.org.

Commercial & Industrial Programs

COMMERCIAL & INDUSTRIAL PRESCRIPTIVE PROGRAM

The Commercial & Industrial Prescriptive Program offers incentives or instant discounts for the following qualifying energy efficiency solutions

- Heating Solutions including boilers, furnaces, heat pumps, and controls*
- Lighting Solutions including interior and exterior lighting fixtures and controls
- Cooling Solutions including heat pumps and variable refrigerant flow systems
- Compressed Air Solutions including compressed air systems and controls
- Commercial Kitchen Solutions including cooking and storage equipment*
- Agricultural Solutions including production and storage equipment
- Water Heating Solutions including water heaters and controls*

* New natural gas customers may be eligible for additional incentives for the installation of qualified, high-efficiency equipment.

COMMERCIAL & INDUSTRIAL CUSTOM PROGRAM

The Commercial & Industrial Custom Program targets unique energy efficiency projects that require tailored engineering analyses. Maine businesses, institutions, nonprofits, and governments can apply for incentives for cost-effective electrical efficiency, distributed generation, or thermal efficiency projects. Efficiency Maine typically pays for 50% of the project cost up to \$1 million, but will not buy down the project payback below one year. The minimum project cost is \$20,000. Customers may be eligible for free scoping audits and technical assistance incentives. For details, visit efficiencymaine.com or call **866-376-2463**.

Electric Projects: Efficiency Maine offers incentives for custom electrical energy efficiency projects that reduce the consumption of grid-supplied electricity. Awarded projects include process improvements, HVAC controls, installation of VFDs on motors, and pump upgrades.

Distributed Generation Projects: Efficiency Maine offers incentives for behind-the-meter generation projects that reduce the consumption of grid-supplied electricity. Combined Heat & Power (CHP) projects are the most common type of distributed generation project.

Thermal Projects: Efficiency Maine offers incentives for custom thermal energy efficiency projects that reduce the consumption of natural gas. Awarded projects include heat recovery measures, boiler upgrades and controls, and HVAC controls.

Technical Assistance: Customers that need help developing investment-grade project analyses may apply for technical assistance incentives. Efficiency Maine may provide 50% of the cost of an approved study up to \$20,000.

DISCOUNTED SCREW-IN LEDS

Efficiency Maine incentivizes high-efficiency screw-in LEDs at distributors across Maine. For a list of distributors where you can receive a discount on-the-spot, visit efficiencymaine.com.

Restrictions apply. Please see efficiencymaine.com for full program details, or call 866-376-2463.

ABOUT EFFICIENCY MAINE: Efficiency Maine is the independent administrator for energy efficiency programs in Maine. Efficiency Maine's mission is to lower the cost and environmental impacts of energy in Maine by promoting cost-effective energy efficiency and alternative energy systems to help customers save electricity, natural gas and heating fuels throughout all levels of the Maine economy.
