This RFQ establishes a pool of prequalified professionals to assist the Trust with discrete projects within their appropriate service areas. The Trust will contact one or more individual firms as needs arise. As mentioned in the RFQ, the Trust will request support based on past experience or qualifications for the task, or request quotes for specific Statements of Work (SOWs), or will notify a list of potential contractors about a project and select a contractor based on availability. Prequalified contractors have no guarantee of receiving any SOWs during the term of the contract; there is no obligation of the Trust to provide any equitable distribution of work.

Nathaniel Blackford
Program Assistant, Efficiency Maine Trust
