

BUYING AN ELECTRIC VEHICLE?

Charge your new EV quickly at home!

Participate in the **Efficiency Maine Smart Charge Program** to take advantage of discounts and rebates when purchasing a smart Level 2 JuiceBox charger.

Why a JuiceBox Smart Charger?

- Charge up to 7 times faster than a Level 1 charger.
- Control and monitor your electric charging via your smartphone app, Amazon Alexa, or Google Home.
- Install your EV charger in a flexible and convenient location thanks to JuiceBox's 25-foot cable.

To be eligible for the Efficiency Maine Smart Charge Program¹ you must live in Maine and own or lease an EV or plug-in hybrid. In addition, you'll be asked to participate in the program for one year and shift your home charging to off-peak hours to earn the off-peak charging rebate. Your participation will help Efficiency Maine gain insights into how EVs are impacting Maine's electric infrastructure.

¹ The program is limited to the first 100 people who install their charger.

Purchase your discounted Level 2 JuiceBox charger at <https://evcharging.enelx.com/Maine-store>
