

Home Energy Loans to Reduce Up-Front Costs

LOAN + REBATE = COMFORTABLE, ENERGY-EFFICIENT HOME

Efficiency Maine's Green Bank offers home energy loans to help homeowners pay for qualifying energy upgrades. To make the loan process as simple as possible, Efficiency Maine has implemented a new, streamlined online lending platform for loan applications and servicing. It's easy and fast.

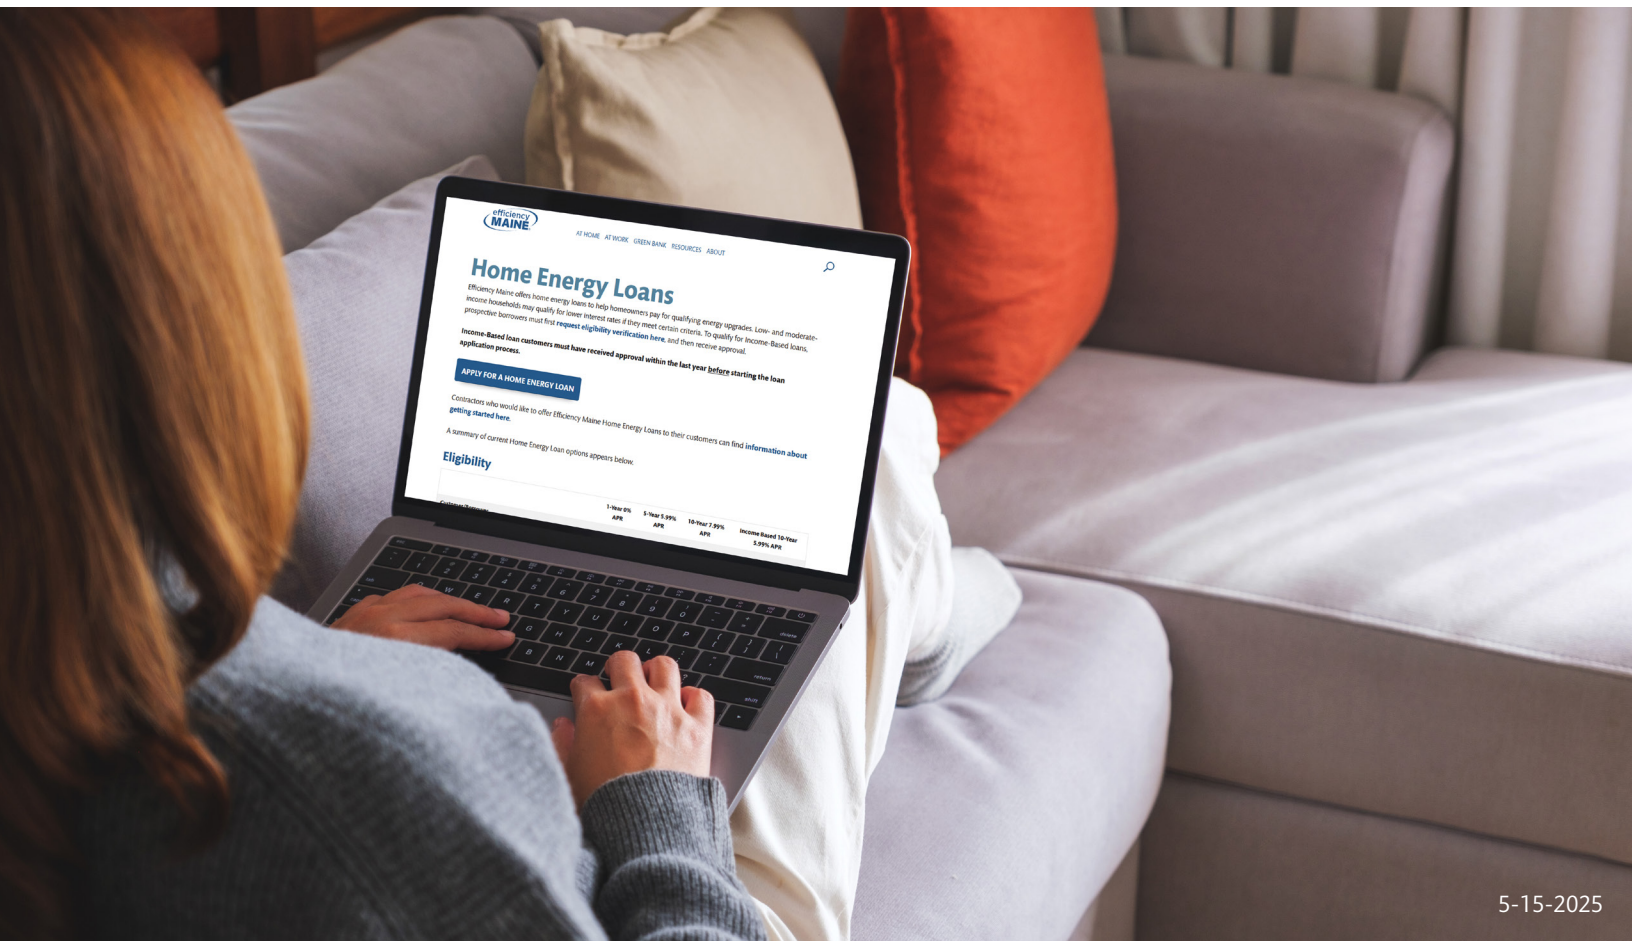

Qualifying projects include equipment and upgrades associated with:

- **Heat Pumps** – for space heating and cooling in which the project is not a heat pump/fossil fuel combination system (“dual fuel”).
- **Insulation and Air Sealing** – Attic, wall, or basement insulation and air sealing in an area that is heated.

Low- and moderate-income households seeking a lower interest rate must first request eligibility verification at efficiencymaine.com, and then receive approval.
