

FINANCIAL EXAMPLE

\$1,300 qualified heat pump water heater
– \$ 750 Efficiency Maine mail-in rebate
\$ 550 net price

\$330/year savings for a four-person household*
20-month payback
More than \$3,000 lifetime savings*

*Source: energystar.gov accessed 11/1/17.
Note: Your costs and savings may vary.

BENEFITS

1. Heat pump water heaters can save more than \$3,000 over the life of the unit compared to electric water heaters.
2. They typically have 10+ year warranties.
3. They dehumidify the space they are in.

OTHER CONSIDERATIONS

1. They are as loud as a dehumidifier, so are best installed in an unoccupied room.
2. Condensate from the heat pump water heater must be pumped or drained away from unit.
3. If installed in a conditioned space, your heating system may have to work harder to balance the cooling effect of the heat pump water heater. This can reduce savings during the heating season.
4. They complement but do not replace dehumidifiers, because they operate based on hot-water demand instead of humidity levels.
5. Air filters must be rinsed regularly.

TAKE ACTION

1. If your electric water heater is more than 10 years old, replace it now while incentives are available. Don't wait for it to break.
2. Check out efficiencymaine.com to find participating retailers and installers who can help you determine if a heat pump water heater is right for you.

Heat Pump Water Heaters

Each year, thousands of Mainers buy heat pump water heaters. ENERGY STAR® reports that these high-efficiency units can save a four-person household more than \$3,000 over ten years when compared to electric water heaters. Other benefits include long warranties and the ability to dehumidify.

They are sometimes called “hybrids” because in addition to a heat pump, they have traditional electric resistance heating elements for times when demand exceeds what the heat pump can produce.

A \$750 Efficiency Maine rebate is available on ENERGY STAR® heat pump water heaters. Install it yourself or hire a professional.

Visit efficiencymaine.com to find retailers and installers to help you determine if one is right for you.
