Heat Pump Eligibility Criteria and List of Known Eligible Models*

Updated on 2/12/18

Eligibility Criteria

Eligible ductless heat pumps installed by an [Efficiency Maine Registered Vendor](#) in residential, 1-4 unit buildings that serve as the principle residence for the occupants may qualify for a \$500 rebate. An additional \$250 rebate is available for heat pumps with multiple indoor units, or a second heat pump with only one indoor unit. Please see [Rebate Claim Form](#) for full list of terms and conditions.

Known Eligible Models*

The following is a list of ductless heat pumps that meet or exceed the program requirements for efficiency*. Other units may also qualify. For more information, please contact Efficiency Maine at 866-376-2463 or efficiencymaine@efficiencymaine.com.

HEAT PUMPS with SINGLE INDOOR UNIT (HSPF min = 12.0)				
#	Manufacturer	Model Number	HSPF	# of Indoor Units
1	Carrier	38MAQB12R-3*	12.0	1
2	Daikin	RXL09QMVJU*	12.5	1
3	Daikin	RXL12QMVJU*	12.0	1
4	Daikin	RXL15QMVJU*	12.5	1
5	Daikin	RXS09LVJU*	12.5	1
6	Daikin	RXS12LVJU*	12.5	1

* Listed efficiencies are for systems with wall-mounted, interior units. Systems with ducted or mixed indoor units often have lower efficiencies and may not qualify. Heat pumps that appear with an asterisk next to the outdoor unit model number can be paired with more than one type of wall-mounted, indoor unit. Again, some combinations may not qualify. When selecting your heat pump and to ensure rebate eligibility, please pay close attention to both the type and model number of the indoor unit. Work closely with your Registered Vendor and, if necessary, refer to the [Air Conditioning, Refrigeration and Heating Institute \(AHRI\) Directory](#).
