

There are two ways to access incentives for high-efficiency heating and cooling equipment. Instant discounts are applied at the counter when your contractor is purchasing equipment on your behalf OR your contractor can apply for an incentive from Efficiency Maine. **Here's how to get started:**

Equipment eligible for INSTANT DISCOUNTS	Equipment eligible for CASH INCENTIVES
<p>Boilers ≤ 500 MBtu/h (Natural Gas, Compressed Natural Gas, Oil and Propane)</p> <p>Furnaces ≤ 300 MBtu/h (Natural Gas, Oil, and Propane)</p> <p>Low-intensity, infrared heaters (Natural Gas and Propane)</p> <p>Warm-air heater (Natural Gas and Propane)</p> <p>Tankless Water Heaters (Natural Gas and Propane)</p> <p><i>Instant Rebates reduce the cost difference between conventional and high-efficiency systems to make upgrading to a high-performance system as easy possible.</i></p>	<p>Ductless Mini-Split Heat Pump Systems</p> <ul style="list-style-type: none"> • 1 Zone: \$500/system • 2 Zones: \$750/system • 3 Zones: \$1,000/system • 4 or more Zones: \$1,250/system <p>Packaged and Ducted Heat Pump Systems</p> <ul style="list-style-type: none"> • Air-to-Air Heat Pump Systems: \$50/ton • Water Source Heat Pump Systems: \$100/ton • Demand Control Ventillation (DCV): \$500/unit <p>Variable Refrigerant Flow Systems</p> <ul style="list-style-type: none"> • \$0.50/sq. ft. <p>Boiler Controls & Ancillary Equipment</p> <ul style="list-style-type: none"> • Modulating Burner Control: \$1.59 per MBtu/h • Standard Boiler Economizer: \$950 per MMbtu/h • Condensing Boiler Economizer: \$1,325 per MMbtu/h • Boiler Reset/Lock Out Controls: \$375 per Unit • Oxygen Trim Controls: \$0.75 per Mbtu/h • Boiler Turbulator: \$9.50 per Unit • Programmable Thermostat: \$115.00 per Unit <p>VFDs for HVAC</p> <ul style="list-style-type: none"> • \$400 - \$2,300 per unit (<i>incentive varies by system horsepower</i>) <p>Boilers > 500 MBtu/h (Natural Gas, Oil, and Propane)</p> <ul style="list-style-type: none"> • \$650-\$14,500 • Incentive varies by system size and fuel type

Equipment efficiency requirements vary depending on fuel type and equipment size. Work with an Efficiency Maine Qualified Partner to learn more about eligibility requirements, complete program guidelines, and project completion time periods — and to upgrade your facility.

Effective 7/1/17 - 9/30/17

Efficiency Maine is the independent administrator for energy efficiency programs in Maine. Efficiency Maine's mission is to lower the cost and environmental impacts of energy in Maine by promoting cost-effective energy efficiency and alternative energy systems to help customers save electricity, natural gas and heating fuels throughout all levels of the Maine economy.
