

COMMERCIAL & INDUSTRIAL PRESCRIPTIVE PROGRAM MEASURES LIST

Heating & Cooling Solutions

There are two ways to access incentives for high-efficiency heating and cooling equipment. Instant discounts are applied at the counter when your contractor is purchasing equipment on your behalf OR your contractor can apply for an incentive from Efficiency Maine. **Here's how to get started:**

Equipment efficiency requirements vary depending on fuel type and equipment size. Work with an Efficiency Maine Qualified Partner to learn more about eligibility requirements, complete program guidelines, and project completion time periods – and to upgrade your facility.

Efficiency Maine is the independent administrator for energy efficiency programs in Maine. Efficiency Maine's mission is to lower the cost and environmental impacts of energy in Maine by promoting cost-effective energy efficiency and alternative energy systems to help customers save electricity, natural gas and heating fuels throughout all levels of the Maine economy.
