

# HEAT PUMP RESERVATION REQUEST

For a low-income supplemental heat pump, or for Low- or Moderate-Income (LMI) customers who will use heat pumps as their primary heating system.

Please do not include any customer's income-related documentation in your communications. Customers should verify income eligibility using the Efficiency Maine [Income-Based Eligibility Verification](#) webpage. Customers needing assistance with income verification should call 866-376-2463.

Your reservation will not be considered complete until all requested information is received, and Efficiency Maine has provided a reservation number. For the comprehensive list of all rebate requirements, please [visit our website](#). Low-income claims will only be paid to the Residential Registered Vendor. Moderate-income claims may be paid to either the Residential Registered Vendor or the homeowner.
