

# Small Battery Management

## Incentives for Homes and Businesses

Efficiency Maine offers incentives to homeowners and businesses to use our platform to automatically discharge power from their battery system on certain days with peak grid conditions.

Small batteries are an excellent solution for homes and small businesses seeking power reliability. They are also an effective source of alternative on-site power and can ease demand on the electric grid during periods of high demand.

Scan the QR code above to calculate your incentive potential

Annual Incentive	\$100/average kW/year, up to 20kW
Eligible Sectors	Residential and small commercial
Permitted System Types <sup>1</sup>	New and existing systems; Standalone solar-tied systems
Permitted System Manufacturers	Visit <a href="https://www.efficiencymaine.com">efficiencymaine.com</a> for a current list of eligible manufacturers
Enrollment Limit per Building	1 system (incentives offered up to 20 kW)
Demand Response Events per Year	Approximately 40 and no more than 60
Days Events Can Occur	Non-holiday weekdays from June 1 - September 30
Event Duration	No more than 3 hours from 1:00 p.m. to 8:00 p.m.

Small battery owners can also receive **up to a 30% federal tax credit** on the installation of a battery for qualifying homes<sup>2</sup> and businesses<sup>3</sup>. Visit [efficiencymaine.com](https://www.efficiencymaine.com) to see which devices are eligible, **enroll today**, and learn how to receive your rebate.<sup>4</sup>

<sup>1</sup> Battery systems must be connected, via the Internet, to the Efficiency Maine platform. Internet connectivity is a prerequisite of participating in the program.

<sup>2</sup> Requirements or exceptions may apply. For more detailed information, please consult a tax advisor and/or official IRS publications at <https://www.irs.gov/instructions/i5695>.

<sup>3</sup> Requirements or exceptions may apply. For more detailed information, please consult a tax advisor and/or official IRS publications.
